

RSM Lining Supplies Global Ltd have partnered with Dancutter to provide an efficient, cost effective solution for lateral cutting and reinstatement.

Dancutter, whose head office is in Denmark, have been at the forefront of the lateral reinstatement market for 15 years and have systems world wide. Their simple system and excellent customer service has been the reason for its continued success in the CIPP market.

DC 70

Robust cutter	Air motor = 13000 Rpm
360° continuous rotation	Power = 110v/240v
Working area is between 100 (4in) - 300mm (12in)	Hose reel and control box = 30m/50m (100ft/164ft)
Weight = 8kg (18lbs)	

DC FLEX

Suitable for 90° bends	Air motor = 15000 Rpm
360° continuous rotation	Power = 110v/240v
Working area is between 100 (4in) - 300mm (12in)	Hose reel and control box = 30m/50m (100ft/164ft)
Weight = 4.5kg (10lbs)	

DC SUPERFLEX

Suitable for multiple 90° bends	Built in 12inch monitor
360° continuous rotation	Air motor = 15000 Rpm
Working area is between 70mm (3in) - 150mm (6in)	Power = 110v/240v
Self cleaning camera lens
