

# SEWERTRONICS

*RSM Lining Supplies are in partnership with SEWERTONICS. Bringing patented, revolutionary UV LED Curing technologies to the UK market.*

## SPEEDYLIGHT+ UV LED CURING SYSTEM

*A fast UV LED curing systems for reinstatement of upto 70metres of 100-300mm in one installation. Featuring an innovative, patent pending, rotating UV LED design, delivering high energy density at the surface of the liner.*

### CHARACTERISTICS:

- + Cures both felt and glass fibre liners
- + Increased installation productivity
- + Interchangeable rotating curing heads
- + Deeper curing penetration
- + Two curing heads for different working diameters
- + Negotiates 90° bends
- + All-in-One package, integrated power supply, no interconnecting cables

## WORLDWIDE PATENT PENDING

*SpeedyLight+ is protected by a family of patents claiming priority of patent application EP16002230*

*LED Rig+ is protected by a family of patents claiming priority of patent application EP17460001*
